Education

Concordia University — Montreal, Quebec
Bachelor of Engineering in Software Engineering — *Aug. 2025 – May 2029*

College Stanislas — Montreal, Quebec
French Baccalaureate (science) — *2025*

Experience

Salesperson – Rudsak Inc — Montreal, Quebec
December 2025

- Assisted customers in selecting outwear and accessories by accommodating fits, styles, sizes and budget
- Organized backstock and storage areas to keep inventory easy to locate and restock efficiently

Salesperson – Soccer Experts — Montreal, Quebec
October 2025 – December 2025

- Recommended soccer footwear and equipment by comparing models, fit and budget
- Kept assigned sections organized by maintaining clear product displays

Projects

Personal Portfolio Website (HTML/CSS)

- One-page portfolio with responsive layout and sections for Projects, Skills, and Contact
- Built with semantic HTML and custom CSS styling

Coffee Shop Website (HTML/CSS) (in progress)

- Designing a responsive coffee shop webpage with menu layout, featured items, and contact/location section
- Focus on clean layout, typography, and mobile-first design

Carbon Footprint Tracker (Java)

- Console program that logs daily activities and estimates CO_2 emissions with clear, formatted output
- Includes input validation and structured program design for readability and maintainability

Wildlife Sightings Tracker (Java)

- Console app to record sightings and generate summaries (species/location/date) using structured data.
- Focused on clean prompts, organized output formatting, and basic data processing logic.
